Ø 80mm

100kg

* Heatable volume will vary, based on fuel used and building's insulation and airtightness levels.

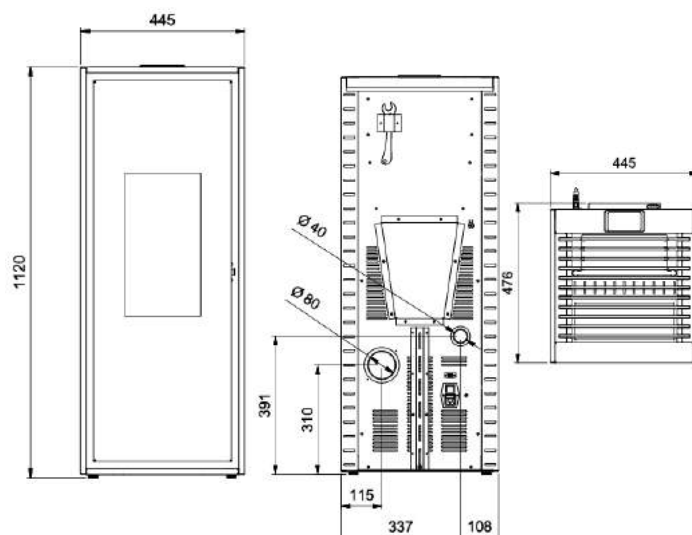

The Domus is a designer stove with a sleek and precise look, accentuating the essence of the steel. The subtle highlighting of the stove's body, in choice of colours, behind the shell brings an air of mystery as well as aesthetical brilliance. The top grille, also in the chosen colour, aids the dissipation of heat by natural convection and the tall viewing glass allows a great view of the beautiful flames.

KEY FEATURES

- Stunning design with subtle colour bands
- Advanced, user-friendly, 6 button LCD display
- Ambient fan for heat circulation
