Ø 100mm

154kg

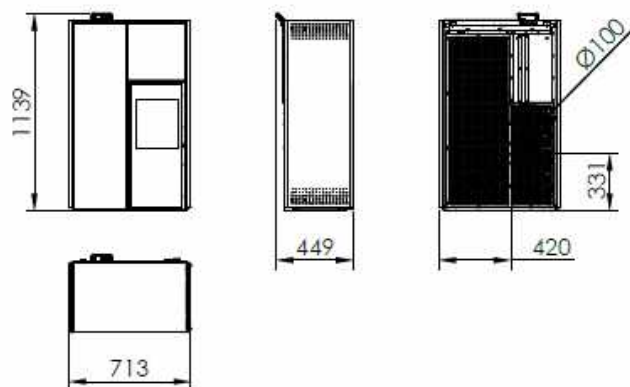

The Hidrocopper Slim 18 is a wood pellet boiler stove, with a unique shape to allow for more challenging installations, e.g. in smaller rooms. It's an airtight stove, so no permanently-open vent is required. This stove monitors and adjusts the pellet feed and air supply automatically, depending on local conditions and pellet quality. Wi-fi and internet control give you complete control and allows remote log-in by a technician.

### KEY FEATURES

- Airtight stove: no separate room vent required
- Self-regulating: auto-adjusts to chimney & fuel
- Wi-fi/smartphone control & remote diagnostics
- Anti-condensation system, no valve required
- Control by room temperature or power level
- Multiple safety sensors and alarms
- Vacuum cleaning system
- Built-in pump, safety valve and expansion tank
- Rear flue exit
- Full technical aftersales & maintenance
- 5-year warranty \*
- Maintenance contract available

\* Subject to a maintenance contract, otherwise standard 2 year warranty applies
